Project - Design - Application

ALPLAM GROUP is a specialist in the latest architectural building and interior products, whether for public, commercial, hospitality, healthcare, educational or residential applications.

ALPLAM GROUP is an established and trusted company b y consisting of 100% domestic capital since 1988. From the outset, ALPLAM GROUP focused on providing the highest level of customer service, working only to exceed expectations, in order to build lasting partnerships. This has allowed the ALPLAM GROUP to grow and evolve with our expanding list of references, as well as offering an ever-increasing range of services.

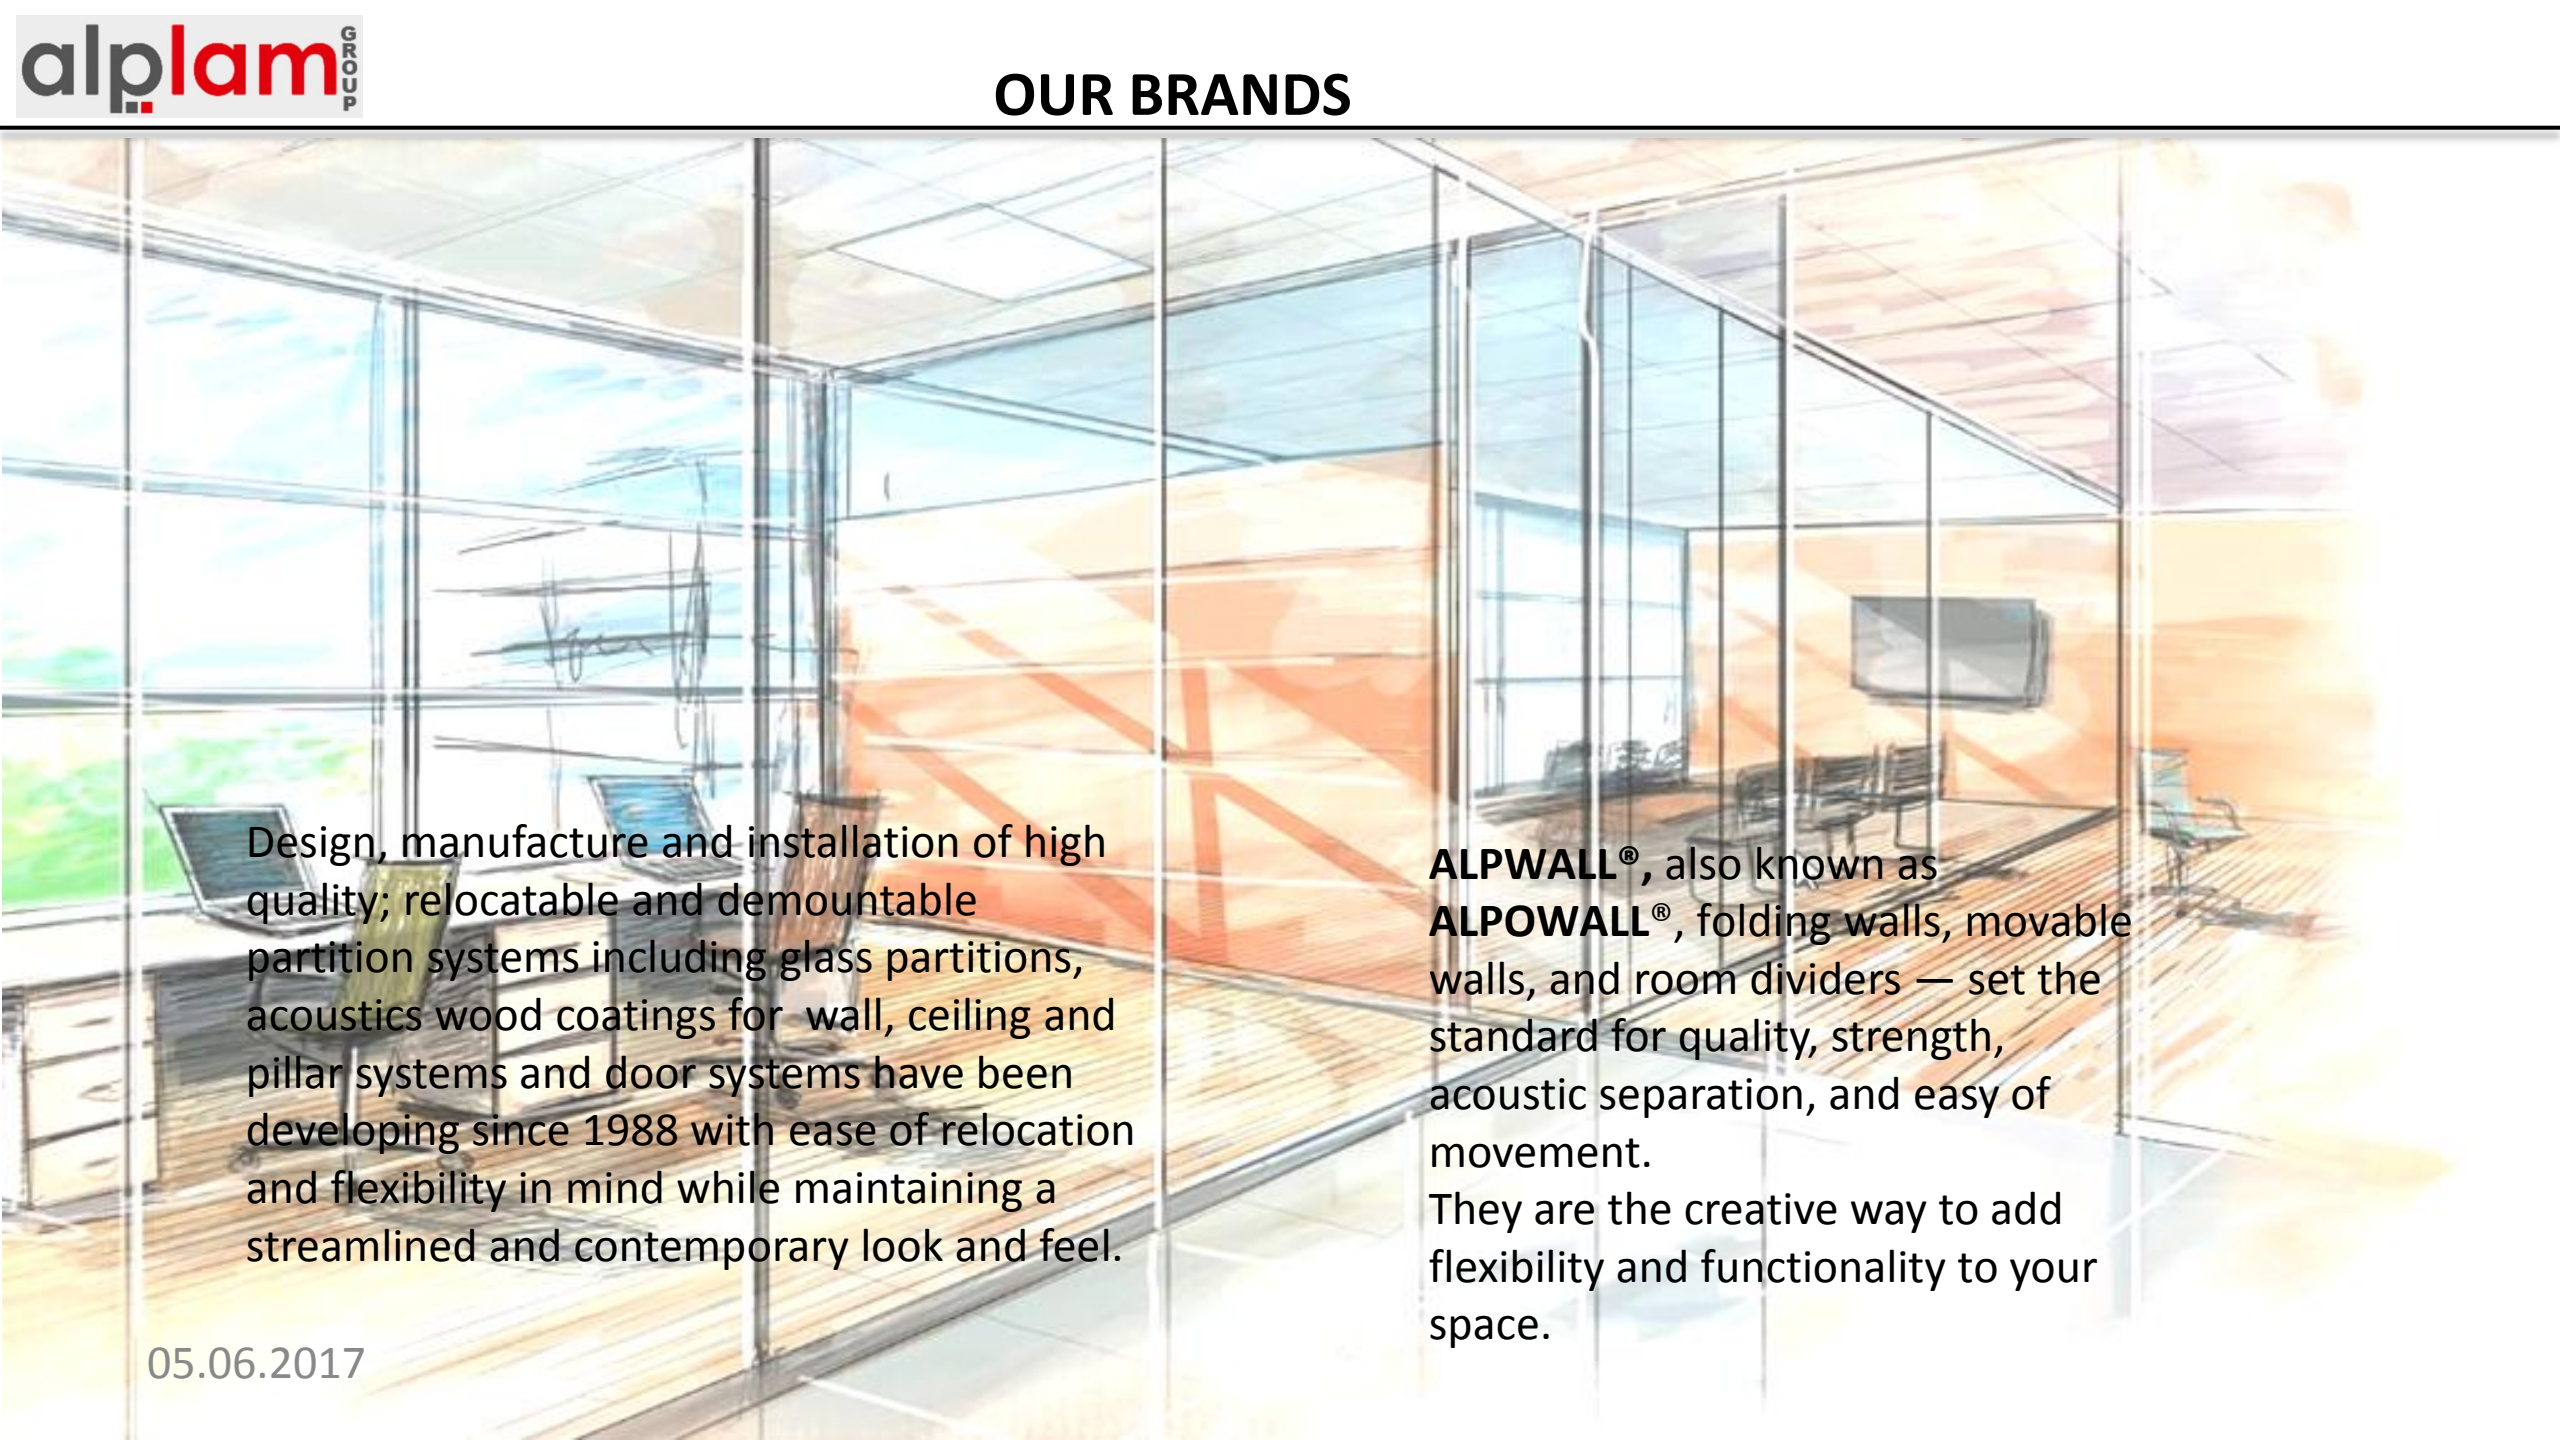

ALPLAM Partition's core business is the design, manufacture and installation of high quality; relocatable and demountable partition systems including glass and operable wall products, movable acoustics walls, acoustic pillar and wall wood coating.

Partition system by ALPLAM GROUP has been developed with ease of relocation and flexibility in mind while maintaining a streamlined and contemporary look and feel. Panels come in an unlimited range of finishes and simply hook on to the load bearing structure. This makes Alplam's products is the perfect option for companies that have a high churn rate.

Our Mission: To assist the individual architect or designer with unique and flexible solutions by providing quality innovative architectural products and systems, combined with exceptional project management service, delivered and communicated in a timely and cost effective manner.

With region offices in Europe,Asia,Africa, our geographical reach incloses the whole of the Turkey,Middle East and nearby countries. We are proud of the professional team that has been assembled and we are confident that the services we provide are of the highest standard. All members have extensive experience and knowledge within their specialist field. The team are always on hand to answer any questions that you may have so please feel free to contact us at any time.

- ✓ 5000m² manufacturing area at the facility.
- ✓ 28 employees.
- ✓ 1st %100 local Movable Partition manufacturer in Turkey, since the year of 2008.
- ✓ One of the three reputable company in Turkey, in their industry, since the year of 1988.

A watercolor illustration of a modern office interior. It features glass partitions, desks with laptops, and a bright, airy atmosphere with warm tones. The illustration is split into two main sections by a vertical line.

Design, manufacture and installation of high quality; relocatable and demountable partition systems including glass partitions, acoustics wood coatings for wall, ceiling and pillar systems and door systems have been developing since 1988 with ease of relocation and flexibility in mind while maintaining a streamlined and contemporary look and feel.

ALPWALL®, also known as **ALPOWALL®**, folding walls, movable walls, and room dividers — set the standard for quality, strength, acoustic separation, and easy of movement. They are the creative way to add flexibility and functionality to your space.

CC2C MODÜLER BÖLME DUVAR SİSTEMİ

ALPLAM MINIMAL

- Has a minimalist structure consisting of hidden profiles between the innovative wall viewpoint and the glass. Thus completely smooth; with unique open spaces, flexible, light-filled and positively energetic living atmospheres will be created.
- Glass to glass combination, is a system composed of patented aluminum profiles.
- System thickness: 40 mm.
- Interchangeable partition modules; Full glass, horizontal, vertical, diagonal etc.
- Double glazed max 12mm - 6+6 mm , 10mm- 5+5mm , 8mm- 4+4 mm melamine, door units result in easy application and mounting advantage

ALPLAM MONO

- Special Patented Profiles.
- Horizontal and vertical 6 mm fuga. An important feature: Easy adjustment due to double glazed semi- monoblock units
- System thickness: 80 mm.
- Removable partition wall designed changeable as horizontal and vertical ; full, full glass, upper parts glassed panels, etc.
- Double glazed max 6mm, monoblock, blinded series types if desired, easy application and mounting advantage with full melamine panel modules and door units.
- A wide variety of coating systems: HPL, veneer, lacquer, fabric, painted glass ending panels.

ALPLAM Door Systems

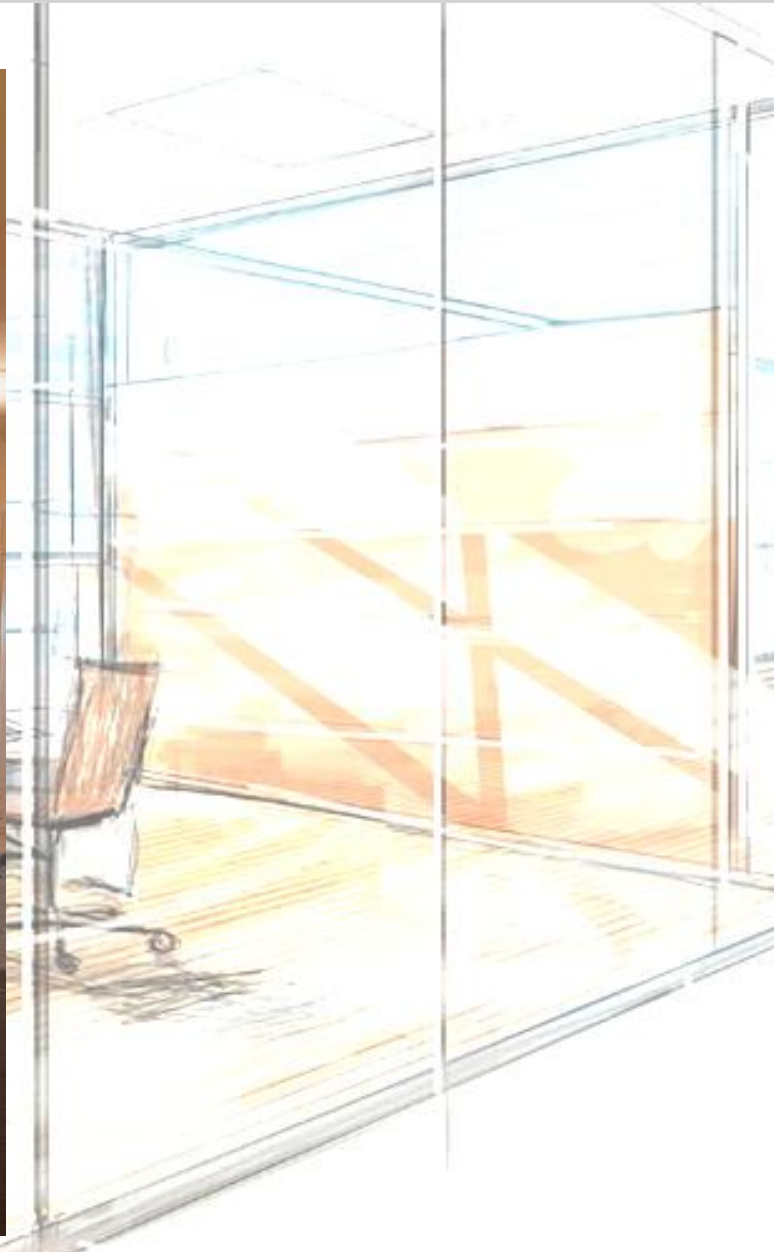

ALPLAM adjustable aluminum door frames with wood, glass and laminated door wings. By specifying ALPLAM adjustable aluminum door frames, you accommodate nonstandard wall thickness and match the appearance of other ALPLAM components. The frame includes integral aluminum reinforcements to provide additional structural support for the installation of hinges and strike plates. Sliding doors are very useful to create practical work place. Laminated door wing with aluminium frame are very durable which is recommended to use in crowded places as communal areas.

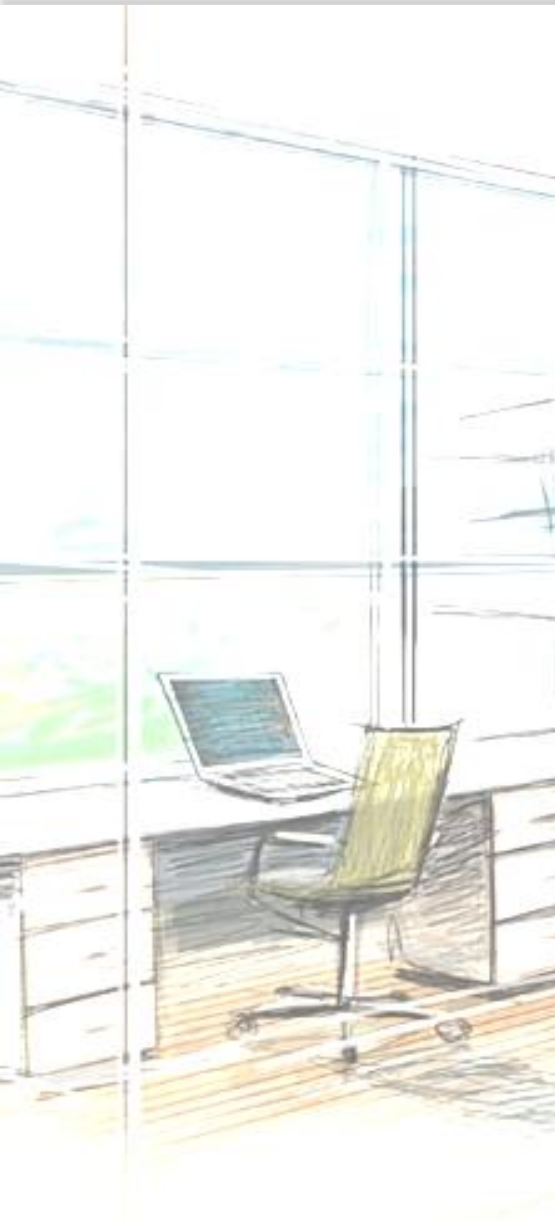

- Adjustable Aluminum Door Frames with Laminated / Glass / Wood Door Wings
- Wood Door Frame - Wood / Lacquer / Glass Door Wings
- Acoustic Door Systems with sound isolation certificates (32-45 dB)
- Labelled Door Systems (30 min.)
- Cubicals for wet floors.

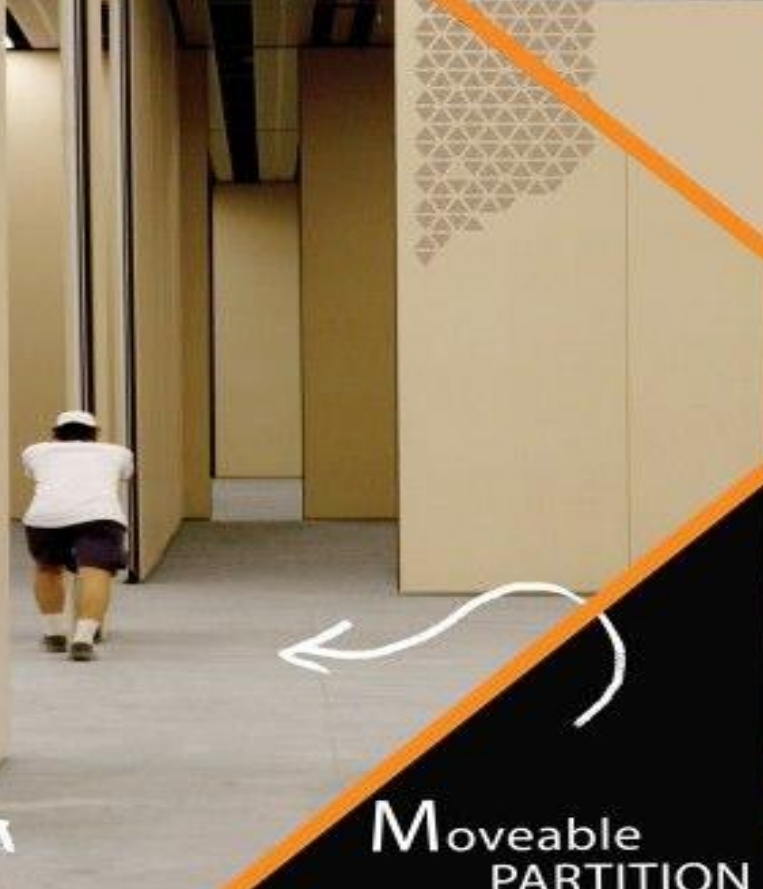

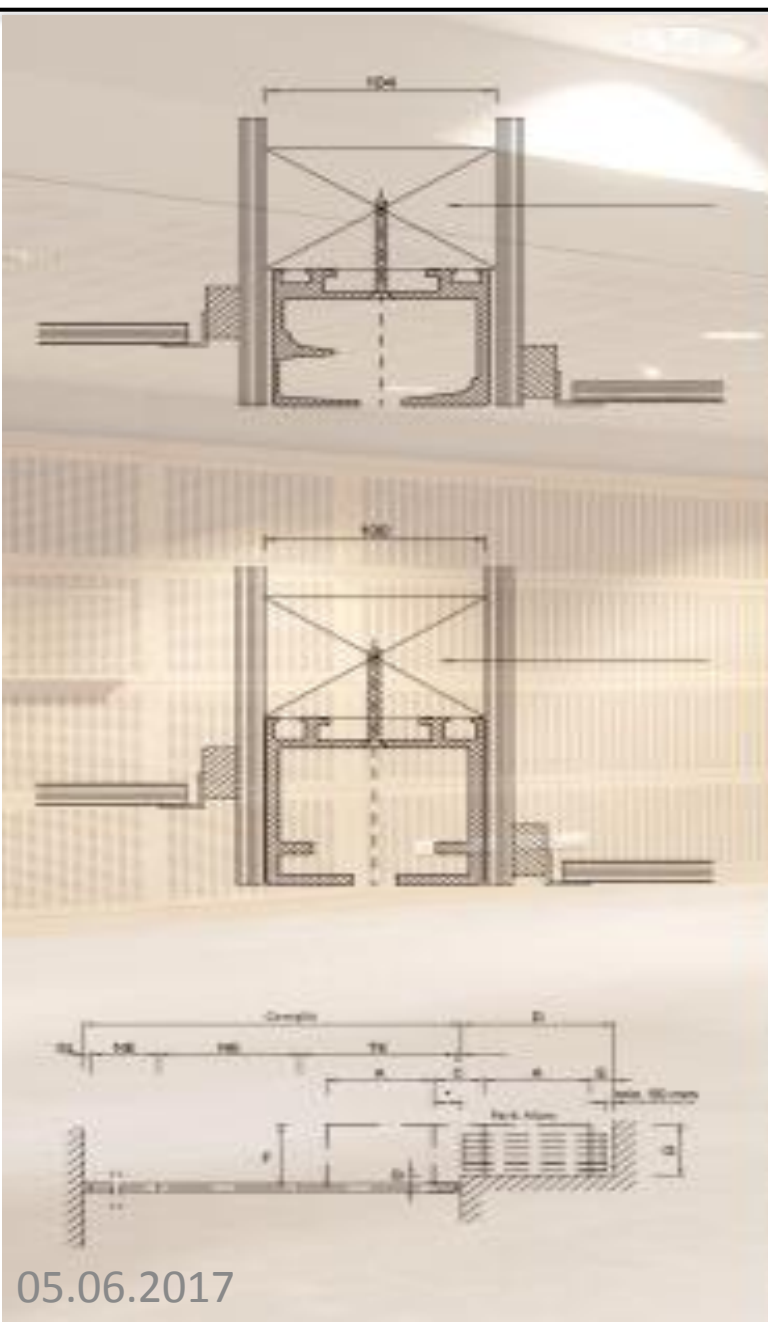

OPERABLE WALL PARTITION SYSTEMS

They are the creative way to add flexibility and functionality to your space. ALPLAM operable partitions — also known as **ALPLAM®**, folding walls, movable walls, and room dividers — set the standard for quality, strength, acoustic separation, and easy of movement.

As with all ALPLAM products, ALPLAM movable partitions are custom manufactured to job site dimensions. Models are designed to provide varying levels of heights, sound control and wood fire retardant with respect to private projects. An array of accessories and options such as pass doors, pocket doors etc., provide additional functionality.
